

THE STOMP^{SHIELD}

keep your knobs set, no matter what.

US PAT. PEND.

Frustrated with accidentally kicking your pedal knobs when stomping on your effects?

Tired of having to re-adjust your settings each time you unpack your pedalboard?

We were too; and so we designed the StompShield. An easy to install device that **protects** your control knobs from any accidental/unintentional manipulation, while still letting you **adjust** and **monitor** your settings on the fly!
